

Law Firm of the Year

HARTE-BAVENDAMM Rechtsanwälte

GERMANY

FIRM PROFILE

Harte-Bavendamm Rechtsanwälte is a boutique law firm specialising in intellectual property law.

We advise our clients from the development of their business concepts to the realization and marketing of their products. We provide strategic advice concerning the creation, acquisition and protection of intellectual property rights as well as advice on research and development, license and distribution agreements. We try and detect possible conflicting intellectual property interests at an early stage in order to minimize risks for our clients.

Whenever necessary, we enforce our clients' interests through litigation. An equally important facet of our work is the consensual resolution of disputes out of court as well as the enforcement and defence of rights in arbitration and mediation proceedings.

- Trade marks (contentious)
